Subject: Council Meeting questions

1. What happens to Lathrop if in 14 months our new police station is not filled with all the officers and personal staff it needs?
2. Can we use SJSO as an option, and what is the cost?
3. Will you contract with another agency for support to supply us personal during the transition, if so who?
4. What is acceptable "minimal staffing standards" when we go live without the SO in 14 months? How many officers will be acceptable, not just leadership but actual boots on the street?
5. 911 dispatch, what is the game plan? What options do we have if we can't get a local agreement?

Thank you for your time answering my questions.

Christina Laughlin
